# SUPERINTENDENT

I would like to take this opportunity to congratulate the graduating class of 1979 for their efforts in completing twelve years of prescribed course of study. Because of the educational opportunities that have been presented, each of you now has the ability to achieve a greater success in your adult life. On the behalf of the faculty and administration, I sincerely hope that you will use your education as a foundation for further endeavors.

The decisions you make concerning your future will be of great significance. Through the values and traits that you have developed and chosen for yourself during your years at Sterling School, you will either achieve excellence or mediocrity. I encourage each of you to set your goal for excellence and work toward that goal throughout your life.

For the students who are underclassmen, may I challenge you to study and learn all that you can during your adolescence so that you will be better equipped in later years to handle problems and opportunities that arise.

Two roads diverged in a yellow wood,  
And sorry I could not travel both  
And be one traveler, long I stood  
And looked down one as far as I could  
To where it bent in the undergrowth;  
Then took the other, as just as fair,  
And having perhaps the better claim,  
Because it was grassy and wanted wear;  
Though as for that the passing there  
Had worn them really about the same,  
And both that morning equally lay  
In leaves no step had trodden black.  
Oh, I kept the first for another day!  
Yet knowing how way leads on to way,  
I doubted if I should ever come back.  
I shall be telling this with a sigh  
Somewhere ages and ages hence:  
Two roads diverged in a wood, and I  
I took the one less traveled by,  
And that has made all the difference.
